

TOOLKIT SURVEY RESULTS

We surveyed people who downloaded our toolkits so we could assess their impact. This is what we found:

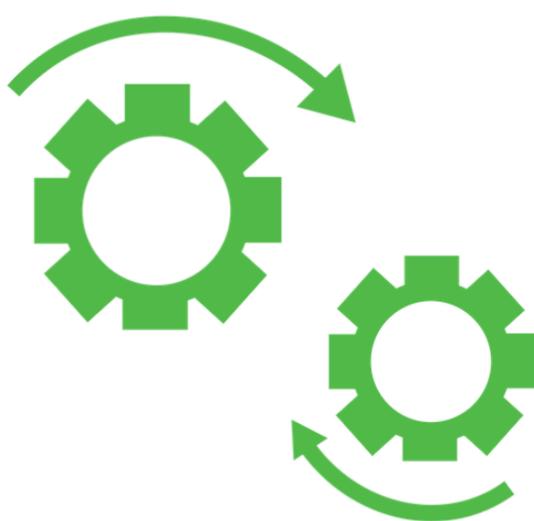

100%

Of respondents agree: They learned new information from the toolkits that enhanced their work.

36%

Of respondents' organizations made changes to program design, service delivery, or staffing because of the toolkits.

75%

Of respondents whose organizations made program changes say that these have led to changes in program outcomes.

36%

Of respondents' organizations have pursued local, state, or federal policy changes to benefit jobseekers facing barriers to employment as a result of the toolkits.

33%

Of respondents whose organizations pursued policy changes believe that these have led to changes in policy at the local, state, or federal level.
